

MEMBERSHIP OF THE TECHNOLOGY EDUCATORS ASSOCIATION OF NSW

TEA is an association for technology educators, which aims to provide professional development, guidance and support for teachers as well as activities to support students in their technology subjects.

TEA is a professional association of primary, secondary and tertiary educators, student teachers and other members of the public interested in the development of technology education in Australia.

TEA provides a voice for educators in a multi-disciplinary field including: Technology (Mandatory), Food Technology, Design and Technology, Textiles and Design, Community and Family Studies, Hospitality and linking also to other subjects within the TAS key learning area.

TEA has been an integral component of teacher professional development programs and is currently expanding its involvement into having committee members reporting on the progress of the National Curriculum and its impact on our subjects.

TEA also has members working with training teachers and we are providing opportunities for new teachers to gain the necessary skills to satisfy the Professional Teaching Standards and the Institute of Teachers requirements.

TEA offers regular meetings for members, workshops, competitions, exhibitions, conferences and video conference opportunities. The committee also has designated meetings times. To strengthen our network we are investigating email support for members.

We have up to date resources available to members, with the recent fabric kits and Texstyle photostories being very popular.

The Association's Newsletter is published 4 times a year, and contains informations about resources, current issues for technology teachers, professional development articles and upcoming events.

Our focus is on:

- Professional development
- Support for teachers and students
- Communication
- Promotion of subjects

Membership of TEA entitles you to receive a copy of TEA news, participate actively in curriculum development, attend & vote at meetings, participate in workshops & conferences at subsidised rates, be a part of an email members' network for mutual support and be able to purchase TEA resources.

2012 TEA MEMBERSHIP (Jan-Dec)

Tax Invoice
